**Re: Written *Ex Parte* Presentation, GN Docket No. 09-51; WC Docket Nos. 96-45, 05-337, 10-90; CC Docket No. 01-92.**

Dear Ms. Dortch:

On July 28, 2011, Christopher Guttman-McCabe, Vice President, Regulatory Affairs, and Scott Bergmann, Assistant Vice President, Regulatory Affairs, both of CTIA – The Wireless Association® (“CTIA”), met with Carol Matthey, Rebekah Goodheart, Jennifer Prime, Al Lewis, Marcus Maher, Victoria Goldberg, Amy Bender, and Ted Burmeister of the Wireline Telecommunications Bureau, as well as Jim Schlichting, Margaret Wiener, Peter Trachtenberg, and Erik Salovaara of the Wireless Telecommunications Bureau. CTIA encouraged the Commission to adopt comprehensive universal service reform that focuses on consumers and the services they demand, namely mobility and broadband. Consistent with the attached presentation, CTIA urged the Commission to adopt proposals that facilitate the goal of maintaining and advancing the United States’ mobile broadband leadership.

In addition, CTIA encouraged the Commission to move forward with common sense proposals for reform of legacy incumbent LEC funding and to move quickly to overhaul the outdated intercarrier compensation system. CTIA noted that reform of the intercarrier compensation regime is long overdue and that the current framework promotes arbitrage and deters investment in next-generation networks.

Pursuant to Section 1.1206 of the Commission’s rules, a copy of this letter and attachment is being filed via ECFS with your office. Please do not hesitate to contact the undersigned with any questions.

Sincerely,

/s/ *Scott Bergmann*

Scott Bergmann
